

## ARCHERY RANGE

The Bethlehem Rod & Gun Club has an archery range that is located on the west side of the lake. The range currently has four bag targets (rated for crossbows) for field points only, a target for broadheads, a large block target for beginners and a moveable block target (this is to enable shooters to shoot from the same line together at different distances). At times there may be a 3D target out as well. There are yard markers indicating 10, 20, 30, 40, 50 and 60 yards. At the range there a sign in post, ample bow hangers and a picnic area.
